Tiburon Car Show - Recap By Charles Thompson

Charles brought his '49 Cad convertible;
Don Barnes brought his '46 Chrysler Town
& Country (left/top two).

"Because of the glare on my iPhone, I didn't notice that I had selected a black & white setting - makes these photos look like they were taken a few decades ago!"

We also met CLC member Mr. Reingold who is working on a long-term project to get his '58 Eldorado Brougham back on the road. The 3rd photo below is a 1902 Prescott steam car which was fired up and taken for a ride around the show. Instead of a horn to warn pedestrians, it has a whistle.

Michael and Wendy Hoge (right/middle) from Petaluma standing with a 1946 Chrysler Traveler. The Pierce Arrow (right/top) looked ready to drive anywhere. CLC member Henry Hopkins' Pontiac woody station wagon (right/bottom). Also there was a very long and impressive Chrysler Airstream sedan (left/bottom).

Association Legislative Alert!

Support an amendment that will help prevent E15 ethanol availability Tell your representative today! Take Action Now! On June 11, the U.S. House will consider H.R. 4800, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act. The bill, in part, funds the U.S. Agriculture Department's Rural Energy for America Program, (REAP) which provides financial assistance to farmers and ranchers or small rural businesses for renewable energy systems such as solar or wind projects, energy efficiency measures. In the past, it also has provided funding for special ethanol blender pumps.

These pumps would be a key component in helping to expand the availability of E15 fuel, a blend of gasoline that includes as much as 15 percent ethanol by volume. The Association of California Car Clubs is joining the American Motorcyclist Association in opposing E15 because misfueling can cause engine and fuel system failure to collector cars nationwide and the 22 million motorcycles and all-terrain vehicles currently in operation and its use can also void manufacturers' warranties.

The U.S. Environmental Protection Agency has publicly acknowledged that E15 in gasoline can damage internal combustion engines by increasing exhaust temperatures and indirectly causing component failures. In motorcycles, collector cars and non-road products, the EPA raised engine-failure concerns related to overheating and the corrosive effects to fuel systems in older cars. This is why the AMA worked to eliminate funding for REAP to purchase and install ethanol blender pumps. The Agricultural Act of 2014, known as the FARM bill, also contained a provision that would deter distribution of E15 fuels into the U.S. marketplace.

Despite congressional intent to stop blender pumps from being funded, U.S. Secretary of Agriculture Tom Vilsack has stated he will use other programs within his department to fund blender pumps. U.S. Reps. Bob Goodlatte (R-Va.), Jim Costa (D-Calif.) and Peter Welch (D-Vt.) will offer an amendment that will ensure that the USDA follows the will of Congress. A similar amendment passed the U.S. House in 2011. The AMA and the ACCC is urging all those who want to protect their motorcycles, ATVs, and collector cars from unsafe fuel to contact their representative to support the Goodlatte/Costa/Welch amendment.
